ROSEANA regenerative creams are suitable for all skin types. The already excellent original formula has now been enhanced by shea and mango butters. Also the rose hip seed oil (Rosa Mosqueta) has contributed to boosting regenerative effects.

A very important component of the ROSEANA creams is the exclusive Bulgarian rose oil. Kings already in the ancient times liked to use cosmetics containing rose oil. Its unique properties are scarcely exploited these days, as it is one of the most expensive essential oils. It optimizes skin functions, keeping it supple. It has a harmonizing effect on wrinkle formation and toning effects. Suitable for all skin types, especially for mature and sensitive skin. ROSEANA creams will be greatly appreciated when applied to irritated or stressed skin. It boasts an outstanding fragrance along with soothing effects.

**Main ingredients:** Vegetable oils and fats: almond, jojoba, rose hip seed, wheat germ, shea butter, mango butter. Lecithin. Bulgarian rose essential oil. Emulsifiers. Vitamins: A, E, F. Beta-carotene, panthenol. Lactic acid. Distilled water.

**Application:** Wash your face and apply the required amount of the regenerative cream on the skin, working it in gently. The skin is not shiny after application.

**Information:** To wash your face before applying the cream, we advise to use surfactant-free washing agents, since it is well known that surfactants deprive the skin of oil, drying it out. It is for this reason that soaps, even the liquid ones, are discouraged. Hydrophilic washing oils can be suggested as a better alternative.
