

AVOCADO SPF 6

Regenerative facial oil with protection factor for mature skin care

Code: 1904

AVOCADO regenerative oil can be recommended particularly for sensitive, mature skin due to the high content of unsaponifiables, which make the skin softer. Other bioactive ingredients of the avocado oil include a high content of vitamins A, E and F, and also trace elements, which unlock its regenerative effects. The very pleasant smell of rosewood turns this preparation into a very interesting alternative for those who have „issues“ with lavender. Avocado SPF 6 provides sun protection when you're out and about in the summer months.

Owing to the selected ingredients, the preparation may boost metabolic processes and keep the complexion supple and flexible. The active ingredients have antiseptic and deodorant properties. They return a youthful look to the tired complexion and prevent wrinkle formation. They provide complex protection against negative environmental effects. Regenerative oils also provide long-lasting hydration.

Main ingredients: Vegetable oils, e.g. avocado, jojoba, walnut, borage, karité, almond. Lecithin. Essential oils: rosewood. Vitamins A, E, F.

Application: Having washed your face, apply a few drops of the oil on the moist complexion and gently massage the forming emulsion into the skin. Facial oils are very economical compared to creams – 30 ml of regenerative oil corresponds to 150 ml of a regular cream. The skin doesn't look oily after application. It is suitable for all skin types.

INCI: Persea gratissima Oil, Simmondsia chinensis Seed Oil, Prunus amygdalus Dulcis Oil, Juglans regia Seed Oil, Borago officinalis Seed Oil, Tocopheryl acetate, Octocrylene, Butyrospermum parkii Oil, Aniba rosaeodora Wood Oil, Retinyl palmitate, Lecithin, Butyl Methoxydibenzoylmethane, Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10°C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
