

Code: 1956

A lipio serum is a regenerative preparation of a whole new kind. Thanks to its ingredients, it optimizes skin functions including the activity of sebaceous glands. It regenerates and softens the skin and may have anti-inflammatory properties. With regular application, over time, hyperpigmentation may even become lighter; it also protects the skin against UV radiation.

Due to cedarwood atlas oil, the preparation can be described as a special regenerative serum for oily skin. It may contribute to improving lymphatic circulation. It has a pleasant smell owing to its composition of essential oils. Given that oily skin tends to be prone to inflammation, we can also highlight its antibacterial, anti-inflammatory and soothing properties. It optimizes the functioning of sebaceous glands.

Main ingredients: Vegetable oils: borage, jojoba. Lecithin. Panthenol. Essential oils: chamomile, Atlas cedar, cypress, lemon balm, lavender. Vitamins E, A, F. Lactic acid. Distilled water.

Application: Apply 5–7 drops several times a day to skin previously treated with a face lotion or a toner. It is also suitable for application to the eye area. Gently rub in the emerging emulsion to the skin. Take care not to exert too much unnecessary pressure, which may disturb sensitive skin capillaries.

Warning: It is important to keep the bottle thread clean! Wipe off any residues to prevent micro-organism contamination. Shake before use.

INCI: Aqua, Lecithin, Simmondsia chinensis Seed Oil, Prunus amygdalus Dulcis Oil, Tocopheryl acetate, Borago officinalis Seed Oil, Panthenol, Urea, Glycerin, Citrus aurantium bergamia Leaf Oil, Cupressus sempervirens Leaf Oil, Cedrus atlantica Bark Oil, Retinyl palmitate, Lactic Acid, Rosa damascena Flower Oil, Thymus vulgaris Flower/Leaf Oil, Thymus serpyllum Oil, Salvia officinalis Oil, Lavandula hybrida Oil, Rosmarinus officinalis Leaf Oil, Eugenia caryophyllus Flower Oil, Piper nigrum Fruit Oil, Citrus limon Peel Oil, Chamomilla recutita Flower Oil, Melissa officinalis Leaf Oil

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10°C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
