

LECIDERMA SHEA ROSE SPF 6
Lecithin-based regenerative cream

Code: 2047

A very mild lecithin emulsion which is easily spread and possesses the fragrance of the queen of flowers – Bulgarian rose. The rose oil it contains is well known for its unparalleled regenerative properties as well as its ability to optimize skin functions and keep the skin soft. In healthy skin, it may restore its tone and elasticity. The preparation is suitable for all skin types, especially for mature and sensitive skin. Thanks to rose oil, it may slow down wrinkle formation and release nervous tension. It is particularly well suited for irritated or strained skin. The SPF 6 variety is particularly suitable for the summer season as an active protection against UV radiation.

Main ingredients: Vegetable oils: macadamia, jojoba, wheat germ. Shea butter. Beeswax. Lecithin. Bulgarian rose oil. Vitamins: A, E, F. Beta-carotene, panthenol. Lactic acid. Distilled water.

Application: Apply 2 times a day after cleansing the skin with face lotion or toner.

Information: To wash your face before applying the cream, we advise to use surfactant-free washing agents, since it is well known that surfactants deprive the skin of oil, drying it out. It is for this reason that soaps, even the liquid ones, are discouraged. Hydrophilic washing oils can be suggested as a better alternative.

INCI: Aqua, Butyrospermum parkii Butter, Simmondsia chinensis Seed Oil, Cetyl alcohol, Macadamia ternifolia Seed Oil, Lecithin, Octocrylene, Panthenol, Cetyl palmitate, Glycerin, Triticum vulgare Germ Oil, Cera flava, Squalane, Tocopheryl acetate, Butyl Methoxydibenzoylmethane, BIS-Ethylhexyloxyphenol Methoxyphenyl triazine, Rosa damascena Flower Oil, Lactic Acid, Urea, Retinyl palmitate, Xanthan gum, Thymus vulgaris Flower/Leaf Oil, Thymus serpyllum Oil, Salvia officinalis Oil, Lavandula hybrida Oil, Rosmarinus officinalis Leaf Oil, Eugenia caryophyllus Flower Oil, Piper nigrum Fruit Oil, Citrus limon Peel Oil, Allantoin, Beta-carotene

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10 °C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
