

Code: 2045

A very mild cream, easily spreadable, with the fascinating fragrance of Indian sandalwood. Its fragrance and effects are so remarkable that it simply could not be omitted from the AKH catalog.

It optimizes skin functioning. Thanks to sandalwood oil, it has unique regenerative properties. It is suitable for all skin types. It has proved particularly good for oily, inflammation and acne-prone skin. Thanks to its ingredients, it may provide astringent and anti-inflammatory effects. It has also been successful in application to dry skin affected by dermatitis or skin allergies. Sandalwood is famous for its ability to promote lymphatic and blood circulation in the vessels – very gently and without strong blood flow. Its unmistakable fragrance will enchant you.

**Main ingredients:** Vegetable oils: macadamia, jojoba, wheat germ. Shea butter. Beeswax. Lecithin. Sandalwood oil. Vitamins: A, E, F. Beta-carotene, panthenol. Lactic acid. Distilled water.

**Application:** Apply 2 times a day after cleansing the skin with face lotion or toner.

**Information:** To wash your face before applying the cream, we advise to use surfactant-free washing agents, since it is well known that surfactants deprive the skin of oil, drying it out. It is for this reason that soaps, even the liquid ones, are discouraged. Hydrophilic washing oils can be suggested as a better alternative.

**INCI:** Aqua, Butyrospermum parkii Butter, Simmondsia chinensis Seed Oil, Cetyl alcohol, Macadamia ternifolia Seed Oil, Panthenol, Lecithin, Cetyl palmitate, Triticum vulgare Germ Oil, Glycerin, Santalum album Oil, Cera flava, Squalane, Tocopheryl acetate, Lactic Acid, Urea, Retinyl palmitate, Thymus vulgaris Flower/Leaf Oil, Xanthan gum, Rosa damascena Flower Oil, Thymus serpyllum Oil, Salvia officinalis Oil, Lavandula hybrida Oil, Rosmarinus officinalis Leaf Oil, Eugenia caryophyllus Flower Oil, Piper nigrum Fruit Oil, Citrus limon Peel Oil, Allantoin, Beta-carotene

**Storage:** The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10 °C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
