

Article number: 5007

**Physical properties:** Colourless to light yellow, oily liquid with a typical smell.

**Relative density:** At 20 °C approx. 0.913 g/cm<sup>3</sup>.

**Main ingredients:** Unsaturated fatty acids – mainly oleic acid (C18:1) approx. 58%, palmitoleic acid (C16:1) approx. 22%, palmitic acid (C16:0) approx. 8%, linoleic acid (C18:2) approx. 4%, vitamins E and A

This oil has delicious smell and taste. Thanks to the content of the rare unsaturated fatty palmitoleic acid and other unsaturated fatty acids, it can help to keep the normal cholesterol level in blood. The high content of vitamin E can protect the cells against oxidative stress.

**Non-dietary use:** It is very mild oil that quickly penetrates the skin, thanks to its composition, and spreads extremely easily. It works well as a component in cosmetic and massage preparations. It is suitable as a basis for hair packs, giving the hair a silky, shining look. Because of its properties, macadamia oil is increasingly employed as a substitute for animal mink oil. It can be used on dry, aging and also baby skin.

**INCI:** Macadamia ternifolia Seed Oil

**Storage:** The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10 °C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
