

Code: 1907

A tried and tested, very mild regenerative oil suitable particularly for sensitive skin care. The soothing effects and the characteristic fragrance are the results of lavender essential oil. Carrot seed essential oil synergistically enhances the effects of lavender, may also encourage facial lymphatic circulation and actively promote regeneration of the skin exposed to the elements.

Owing to the selected ingredients, the preparation may boost metabolic processes and keep the complexion supple and flexible. The active ingredients have antiseptic and deodorant properties. They return a youthful look to the tired complexion and prevent wrinkle formation. They provide complex protection against negative environmental effects. Regenerative oils also provide long-lasting hydration.

Main ingredients: Vegetable oils: sesame, jojoba, wheat germ, borage, evening primrose, almond. Lecithin. Essential oils: lavender, carrot seed. Vitamins A, E, F.

Application: Having washed your face, apply a few drops of the oil on the moist complexion and gently massage the forming emulsion into the skin. Facial oils are very economical compared to creams – 30 ml of regenerative oil corresponds to 150 ml of a regular cream. The skin doesn't look oily after application. It is suitable for all skin types. The oils don't produce any adverse effects and are tolerated even by very sensitive skin.

Information: Regenerative facial oils have a protection factor of at least 2, which prevents premature skin aging due to ultraviolet radiation.

INCI: Prunus amygdalus Dulcis Oil, Juglans regia Seed Oil, Simmondsia chinensis Oil, Triticum vulgare Germ Oil, Sesamum indicum Seed Oil, Butyrospermum parkii Oil, Squalane, Borago officinalis Oil, Oenothera biennis Oil, Lecithin, Tocopheryl acetate, Retinyl palmitate, Lavandula angustifolia Oil, Daucus carota sativa Seed Oil

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10°C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
