

Code: 2011

A very mild regenerative cream with a high content of almond oil. The cream is rich in vitamins. Suitable for general skin care for all skin types, particularly for normal and dry skin. Its active ingredients are famous for their anti-inflammatory effects and have also proved effective when tackling mild dermatitis.

Thanks to its components, it has antiseptic and disinfecting effects, calms and regenerates the skin, also helping to optimize its functions. An outstanding refreshing and subtle fragrance of sandalwood and rose.

Main ingredients: Vegetable oils: almond, karité, walnut, soybean. Waxes. Lecithin. Essential oils: lemon, sandalwood, geranium. Emulsifiers. Glycerin. Vitamins: A, E, F. Beta-carotene, panthenol. Distilled water.

Application: Wash your face and apply the required amount of the almond regenerative cream on the skin, working it in gently. The skin is not shiny after application.

Information: To wash your face before applying the cream, we advise to use surfactant-free washing agents, since it is well known that surfactants deprive the skin of oil, drying it out. It is for this reason that soaps, even the liquid ones, are discouraged. Hydrophilic washing oils can be suggested as a better alternative.

INCI: Aqua, Cetearyl alcohol, Juglans regia Seed Oil, Prunus amygdalus Dulcis Oil, Glycine soja Oil, Butyrospermum parkii Oil, Tocopheryl acetate, Glycerin, Cera flava, Mangifera Indica Seed Butter, Panthenol, Sodium cetearyl sulfate, Lecithin, Urea, Lactic Acid, Citrus limon Fruit Oil, Retinyl palmitate, Thymus vulgaris Flower/Leaf Oil, Citrus limon Peel Oil, Thymus serpyllum Oil, Salvia officinalis Oil, Lavandula hybrida Oil, Eugenia caryophyllus Flower Oil, Rosa damascena Flower Oil, Rosmarinus officinalis Leaf Oil, Santalum album Oil, Pelargonium graveolens Flower Oil, Piper nigrum Fruit Oil, Allantoin, Melaleuca alternifolia Leaf Oil, Beta-carotene

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10 °C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
