

SANDALWOOD HYDROPHILIC OIL

Hydrophilic oil with sandalwood fragrance for make-up removal and oily skin cleansing

Code: 1303

This hydrophilic oil contains active ingredients from Indian sandalwood. Thanks to them, the preparation may have astringent, soothing effects, and when used regularly it may improve the activity of sebaceous glands. Because of its anti-inflammatory properties, it is ideal for sensitive and oily skin prone to acne. It cleanses the skin thoroughly and gently. It preserves the natural protective layer of the skin. It doesn't dry out the skin.

Main ingredients: Vegetable oils: almond, canola, sunflower, walnut. Essential oils: sandalwood, amyris. Lecithin. Vitamins A, E, F. Emulsifiers.

Application: Briefly work in several drops of the hydrophilic cleansing oil to damp skin and wash thoroughly with tepid water. Should you require further toning or subsequent moisturizing, we suggest face lotions and tonics according to their specifications.

Tip: After applying hydrophilic oils, we suggest following up with regenerative facial oils or creams.

INCI: Canola Oil, Helianthus annuus Seed Oil, Laureth-4, Juglans regia Seed Oil, Linum usitatissimum Seed Oil, Simmondsia chinensis Seed Oil, Vitis vinifera Seed Oil, Prunus amygdalus Dulcis Oil, Lecithin, Amyris balsamifera Bark Oil, Santalum album Oil, Beta-carotene, Tocopheryl acetate, Retinyl palmitate

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10°C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
