

GERADERM

Regenerative oil for skin with tendency towards freckles and pigmentation

Code: 1909

The high cosmetic value of this preparation lies in the use of a special vegetable oil formulation. The preparation is suitable for sensitive skin prone to inflammation to protect it from UV radiation. It has excellent regenerative properties; it is suitable for skin that may show marks of aging or pigmentation caused by sun exposure, but also for mature skin. Thanks to its astringent properties, it can be recommended for application on different types of skin affected by skin problems (dermatitis, psoriasis, etc.). The preparation has a very nice rose-lemon fragrance.

Owing to the selected ingredients, the preparation may boost metabolic processes and keep the complexion supple and flexible. The active ingredients have antiseptic and deodorant properties. They return a youthful look to the tired complexion and prevent wrinkle formation. They provide complex protection against negative environmental effects. Regenerative oils also provide long-lasting hydration.

Main ingredients: Vegetable oils: jojoba, walnut, borage, almond. Lecithin. Essential oils: geranium. Vitamins A, E, F.

Application: Having washed your face, apply a few drops of the oil on the moist complexion and gently massage the forming emulsion into the skin. Facial oils are very economical compared to creams – 30 ml of regenerative oil corresponds to 150 ml of a regular cream. The skin doesn't look oily after application. It is suitable for all skin types.

INCI: Prunus amygdalus Dulcis Oil, Simmondsia chinensis Oil, Hypericum perforatum Flower Extract, Juglans regia Seed Oil, Borago officinalis Oil, Lecithin, Tocopheryl acetate, Retinyl palmitate, Pelargonium graveolens Flower Oil, Citrus limon Fruit Oil, Octocrylene, Butyl Methoxydibenzoylmethane, Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10°C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
