A special, tried and tested cream ideal for skin stricken with inflammations and especially acne. Thanks to a selection of essential oils, it may provide a feeling of pain relief. An intriguing, pleasantly spicy fragrance. The composition of essential oils clearly prevents propionibacteria, settling in sebaceous glands, from reproducing. If the activity of sebaceous glands increases, these bacteria start to propagate quickly. They may in turn be the root cause of unpleasant inflammatory processes. The preparation may be helpful as a protection against other such sources of inflammations.

Main ingredients: Vegetable oils: almond, walnut, sesame, soybean, apricot. Beeswax. Lecithin. Essential oils: clove, geranium, tea tree. Vitamins: A, E, F. Beta-carotene, panthenol. Glycerin. Distilled water.

Application: Wash your face and apply the required amount of the regenerative cream on the skin, working it in gently. The skin is not shiny after application.

Information: To wash your face before applying the cream, we advise to use surfactant free washing agents, since it is well known that surfactants deprive the skin of oil, drying it out. It is for this reason that soaps, even the liquid ones, are discouraged. Hydrophilic washing oils can be suggested as a better alternative.

INCI: Aqua, Juglans regia Seed Oil, 90% Cetearyl alcohol, 10% Sodium cetearyl sulfate, Prunus amygdalus Dulcis Oil, Sesamum indicum Seed Oil, Glycine soja Oil, Glycerin, Panthenol, Cera flava, Prunus armeniaca Kernel Oil, Lecithin, Eugenia caryophyllus Leaf Oil, Eugenol, Limonene, Melaleuca alternifolia Leaf Oil, Lactic Acid, Tocopheryl acetate, Thymus vulgaris Flower/Leaf Oil, Pelargonium graveolens Flower Oil, Lavandula hybrida Oil, Rosa damascena Flower Oil, Thymus serpyllum Oil, Rosmarinus officinalis Leaf Oil, Allantoin, Citrus limon Peel Oil, Salvia officinalis Oil, Piper nigrum Fruit Oil, Citronellol, Linalool, Retinyl palmitate, Geraniol, Beta-carotene, Citral

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10 °C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
