

Code: 1954

A lipio serum is a regenerative preparation of a whole new kind. Its ingredients are known to optimize skin functions including sebaceous gland activity. They regenerate and soften the skin and have anti-inflammatory properties – regular application may also lighten hyperpigmentation; they protect against UV radiation.

The mildness of rosewood and its effects make it fit as part of skin care for dry, stressed, sensitive skin. The very nice smell of rosewood makes this preparation a reasonable alternative for those who for whatever reason happen to dislike the smell of lavender. This preparation will win you over through its regenerative properties. It has softening and toning effects. Thanks to its active ingredients, the preparation may also have antimicrobial, anti-inflammatory and soothing effects.

Main ingredients: Vegetable oils, e.g. borage, jojoba. Lecithin. Panthenol. Essential oils, e.g. rosewood, lemon. Vitamins E, A, F. Lactic acid. Distilled water.

Application: Apply 5–7 drops several times a day to skin previously treated with a face lotion or a toner. It is also suitable for application to the eye area. Gently rub in the emerging emulsion to the skin. Take care not to exert too much unnecessary pressure, which may disturb sensitive skin capillaries.

Warning: It is important to keep the bottle thread clean! Wipe off any residues to prevent micro-organism contamination. Shake before use.

INCI: Aqua, Lecithin, Simmondsia chinensis Seed Oil, Panthenol, Urea, Aniba rosaeodora Wood Oil, Borago officinalis Seed Oil, Tocopheryl acetate, Glycerin, Retinyl palmitate, Lactic Acid, Rosa damascena Flower Oil, Thymus vulgaris Flower/Leaf Oil, Thymus serpyllum Oil, Salvia officinalis Oil, Lavandula hybrida Oil, Rosmarinus officinalis Leaf Oil, Eugenia caryophyllus Flower Oil, Piper nigrum Fruit Oil, Citrus limon Peel Oil, Xanthan Gum

Storage: The stated expiry date can be substantially extended by keeping the product in a dark and cold place (ideally in a fridge at 6–10°C).

Best before the date indicated on the packaging. Batch number and volume are indicated on the packaging.
