

LECIDERMA SHEA NEUTRAL
Lecithin-based regenerative cream

Code: 2042

The cream is made without essential oils, and yet it has a light, very pleasant fragrance. It can be used in such cases where added essential oils are undesirable. In fact, LECIDERMA SHEA NEUTRAL represents a basic carrier cream which can be enriched by various active ingredients and essential oils according to the customer's needs. Any cream can be prepared this way with the required concentration of active ingredients.

This is a mild lecithin emulsion with unparalleled regenerative properties. It optimizes the condition of mature skin when first wrinkles start appearing. Other required effects can be obtained by adding specific essential oils or their blends.

Main ingredients: Vegetable oils: macadamia, jojoba, wheat germ, olive, shea butter. Beeswax. Lecithin. Vitamins A, E, F. Panthenol. Lactic acid. Distilled water.

Application: Apply 2 times a day after cleansing the skin with face lotion or toner.

Information: To wash your face before applying the cream, we advise to use surfactant-free washing agents, since it is well known that surfactants deprive the skin of oil, drying it out. It is for this reason that soaps, even the liquid ones, are discouraged. Hydrophilic washing oils can be suggested as a better alternative.
